Feb. 15,-1 yr.

It is a fact not generally known that the James Boss Gold Watsh Cases really con-tain more pure gold than many "solid" gold cases The demand for these watch cases has led to the manufacture of a very low in quality, and deficient in quantity-These cases are made from 41 to 10 karate and a 5 or 6 karat case is often sold for 12 or 14 karats. It is nor economy to buy a watch case so poor in quality that it will soon lose its color, or one so soft that it will lose its shape and fail to shut tight, thus Send two 2 cent stamps for a letting in dust and damaging the works, or one so thin that a slight blow will break wonderful paper it is now. Croup. - A Mother's Tribute. "While in the country last winter my little boy, three yearsold, was taken ill with croup; it seemed as if he would die from strangu-lation. One of the family suggested the use of AYKE'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent does, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,
